Allowable Subject Matter

1. Claims 1, 4-14, 25-34 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, the cited prior art of record, taken alone or in combination, fails to disclose or suggest a method comprises a step of forming a buried conductive region in said substrate below said contact trench such that said buried region at least partially overlaps with said contact trench, said buried conductive region being conductively coupled to said contact, wherein said buried conductive region is formed prior to the formation of said isolation trench and said contact trench, in combination with the rest of the steps/limitation of claim 1. Regarding claims 25, 29, 32, the cited prior art of record, taken alone or in combination, fails to disclose or suggest a method comprises a step of forming a buried conductive region in said substrate below said contact trench such that said buried region at least partially overlaps with said contact trench, said buried conductive region being conductively coupled to said contact, wherein said buried conductive region is formed prior to the formation of said isolation trench and said contact trench, and wherein said contact trench is positioned so that said effective width at least partially overlaps with said buried conductive region and said contact trench extends into said buried conductive region, in combination with the rest of the steps/limitations of claims 25, 29, 32

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
